

Makita

MAKITA IMPACT WRENCH 850 WATTS BLUE 6906

With a powerful 850 Watt motor, Makita 6906 19mm Impact Wrench delivers a torque of 588 Nm for heavy-duty applications. The maximum drill capacity of this electric impact wrench is 19mm. The double insulation in this impact wrench ensures that heat generation is at a minimum level and also enhances safety. Forward/Reverse mode can be done with a rocker switch with ease. One of the best impact wrenches in the market, Makita 6906 has precision gearing with ball and needle bearings for smooth and efficient power transmission. The side handle can be moved through 360 degree for convenience.

Features:

- Strong motor of 850 with 1700 rpm speed and 588 Nm
- Double insulation
- Rocker Reversible feature
- Precision gearing
- Side handle rotates 360 degree for convenience
- Externally accessible brushes for easy replacement
- Rubber bumper in front
- Double insulated

Benefits:

- Reduced overheating
- Increased safety
- User comfort
- Carrying case

Specifications:

- Brand: Makita
- Impact Rate: 1600 ipm
- Max Drill Capacity: 19mm
- Max Torque: 588NM
- Model: 6906
- Power Input: 850W
- Weight: 5.6kg
