

## Nedo X Liner 2 460870

Self-levelling multi-line laser for levelling, aligning, plumbing and marking off right angles in interior finishing.

The green laser lines are particularly easy to see.

The continuous horizontal 360° laser line makes levelling jobs very easy.

The two vertical laser lines generated by the compact housing are arranged exactly at right angles to each other.

Their line of intersection passes through the pivot point of the tripod and the plumb point, making it easy to position the laser over a known point and mark off right angles.

The fine adjustment permits quick and exact alignment of the axes.

### Specifications:

- A laser cross on each of two walls
- Laser cross on the ceiling and plumb point on the floor
- The vertical laser lines extend far beyond the intersection point
- Reliable magnetic damping
- Sturdy, compact housing, splash water protected in accordance with IP 54
- Removable tripod with fine adjustment for quick and exact axis alignment 1/4" and 5/8" connection thread

## Features:

- Ref.-No. 460 875
- Accuracy  $\pm 0.3$  mm/m
- Self-levelling range  $\pm 3^\circ$
- Working range  $\varnothing$  approx. 60 m
- Laser Laser class 2, 532 nm
- Power supply 4 x 1,5 V type AA
- Protection class IP 54
- Operation duration approx. 8 h
- Connecting thread 1/4" and 5/8"
